EDUCATION

SECONDARY EDUCATION

Blooming Buds School Khalilabad
(Class X) 2020-21
Heeralal Ramnivas Inter College
Kalilabad
(Class XII) 2022-23

BACHELOR OF TECHNOLOGY

Institute of Technology And
Management GIDA Gorakhpur
273209
2023-2027

SKILLS

JAVA (DSA) = 50%
Frontend Development = 83%
Backend Development = 45%
Communication = 65%
MySQL = 60%

EXPERIENCE

Designer Internship

I have gained strong practical and academic exposure through multiple Web Development Designer Internships with reputed organizations including **Codec Technologies, CodSoft, TCS iON, Techpile, and OctaNet**. During these internships, I worked on designing and developing responsive web interfaces, implementing modern UI/UX principles, and contributing to real-world application development projects. This hands-on experience helped me strengthen my problem-solving skills, coding practices, and understanding of industry-level development workflows.

In addition to web development, I have completed an AI Foundation Course from the **Jio Institute**, where I developed a solid understanding of artificial intelligence concepts, real-world AI applications, and emerging technologies.

I have also successfully completed Data Science and Cyber Security courses from **Cisco Networking Academy**, gaining foundational knowledge in data analysis, security principles, network protection, and cyber-threat awareness. These courses enhanced my technical versatility and prepared me to adapt to multidisciplinary engineering challenges.
